

## Downloading and Storing BAX data in Bulk

I've written some Python scrips for you to download and store BAX data.

Download the scripts from this chapter's

Dropbox: <https://www.dropbox.com/sh/bea2imkvonxcy4f/AAB10qywjneYxK9Ifb7q7KnDa>

*Download and store a single BAX contract as CSV: "Store BAX\_Single Contract.ipynb"*

*Download and store multiple BAX contract as CSVs: "Store BAX\_Multiple Contracts.ipynb"*

Do remember to change the API key to your own. Get a free API key from Quandl if you have not done so.
